The cost of living continues to rise but sunshine and rain are free. Still as of old the summer sun shines and summer rains fall in your own backyard. There is no land so poor that it cannot be made to grow something. Shall it be something worth while or weeds? You can afford to enjoy a bigger garden this year because the value of the yield was never before so great as compared with the cost of fresh or preserved vegetables.

Send us your order TO-DAY. We have the seeds in stock and can send them out by first mail going your way. Select 25c worth extra for each \$1.00 sent us.

Use Printed Stationery

Every farmer who owns his farm ought to have printed stationery, with his name, the name of his postoffice properly given. The printed heading might also give the names of whatever crops he specializes in, or his specialties in stock. Neatly printed stationery gives you a personality and a standing with any person or firm whom you write and insures the proper reading of your name and address.

If you wish to write to your congressman or a member of the legislature, or if you have a request to make of your county superintendent of schools, or if you wish information from any business house, in any case your letter will have increased weight and receive more and quicker attention if you use printed stationery.

Get the habit. Come into the office of the Search Light Printing Company and have us print you 500 sheets of good paper with envelopes to match. It will be one of the best investments you have ever made.
